

## Another Corrected Headline

Humanity is suffering in a false paradigm reality bounded by faux science, fake history, filtered current events and financed by a fiat monetary system. The Faux Science Slayer website has dozens of articles on each of these monarch-monopolist directed frauds. The robber baron controlled Parrot Press provides the mono-tribe on these subjects, giving the taking points that the New Media is quick to broaden to a diatribe. Often, there is another side, the Empirical Truth side. We live in a Universe of statistically impossible order and infinite complexity. To assume this is the “freak accident hypothesis” is laughable, to assume the rampant LIES in science, history and current events, foisted on humanity are all “random events” is worse than laughable, it is complicity in crimes against humanity.

Carbon climate forcing is a perfect example of Madison Avenue shape charged faux science. Originally projected as uniform consensus, there was immediate push back, just from the technical defects in this hypothesis. The then forced debate was only over the “degree” of warming, instead of the real issue of a flawed, simplistic hypothesis. Traditional Thermodynamics entered the debate, forcing a three sided discussion between the Darth BIG Warmists, the Luke LITTLE Warmists and the Obie NO Warmists. The engineers and physicist s on the Obie side KNOW warming and an excellent series of articles supporting the NO warm position are at the Principia Scientific International website under Publications.

“We don’t know who discovered water, but we are pretty sure it wasn’t the fish”. It is difficult to sort thru the minutia of daily life, then have time to analysis the defects in the matrix and the overall elitist driven trend line. While New Media is doing a commendable job of presenting evidence of the Parrot Press constant misrepresentation of reality, it is left to the reader to connect the mosaic dots and see the overall picture. Sometime events are so absurd that a thousand words of text can be better focused with just the proper, sentence fragment headline. With that, we will examine the current events “back story”, or **BS** and the “corrected headline”, or **CH** that helps frame the false narrative. We will begin with a Christmas time story on the evils of capitalism.

**BS:** An industrious Portland, Oregon eleven year old wanted to earn her own production and marketing based income, so she went to her uncle’s farm and collected mistletoe, which she bound with ribbons and bows. She set off for the market with a basketful of these holiday decorations, only to be stopped by the authorities for unlicensed sales. She was told that she could throw away her products and beg with an empty basket, but that she was barred from capitalism in a free enterprise free zone.

**CS:** *Portland Protected from Preteen Mistletoe Peddlers*

**BS:** Continuing the Christmas theme, Dec 02, 2013 is Cyber-Monday and the Parrot Press team at 60 Minutes did a fluff piece on Amazons NEW drone delivery service. Never mind the logistics, costs and technical impossibilities of this science fiction spoof, the Parrots pulled it off, giving giant Amazon a theoretical boost in cyber profits.

**CH:** *Amazon Phantom Drones Fool Shopping Zombies*

**BS:** MSNBC Parrot, Chris Mathews got a tingly leg when the Meshia Barry spoke and breathless announced his upcoming Christmas special audience with the Blessed Leader.

**CH:** *Tingly Leg Man Gets His Christmas Stocking Stuffed*

**BS:** Always the center of world narcissism, King Barry has not found a leader that he cannot equal. Barry is Washington, Jefferson, Lincoln, FDR, Reagan and more, but this week he is also the New Nelson Mandela.

**CH:** *Amazing, One Demigod Fits All Sizes of Mantles*

**BS:** O-bombie-care can't escape the news, so here's a sample of relevant subjects. Czarina Sebilus was having "difficulty" pushing the ACA so authorized a "clever jingle contest" with \$3000 in CASH prizes, she posted the video of the lucky winner.

**CH:** *Comrades, Join the HHS Slavery Sing Along*

Then the story broke that the HHS Czarina had only met with the King ONCE in three years. The Matrix responded that they met ALL the time, off record [wink, wink]

**CH:** *Potted Plant Meets Secretly with Rubber Stamp*

**BS:** At this point the Bull Shit BS was beyond the Parrot Press limit and Politico replied.

**CH:** *Politico Finds Transparent Truth Twister*

**BS:** Since every cover story requires another cover story, more secret meetings were imagined. To avoid recorded scheduling conflicts, the ghost of Sebilus attended.

**CH:** *Puppet Prez Meets with Phantom HHS Poltergeist*

**BS:** Since this is the MOST environmentally sensitive president in all of history, it was fitting that the Planet Savior address the massive loss of California condors, golden and bald eagles, whooping cranes, a million bats and landfills full of dead birds from the windmill bird shredding lobby. The Eco Loon granted a 30 year waiver to the shredders.

**CH:** *King Barry Gives the National Bird the Bird*

**BS:** Not every news story involves frivolous waste of tax money and well scripted IDOL WORSHIP, some have dire world peace implications. This week China suddenly expanded its national airspace into the air space of others. Realizing the escalating tensions in the region, world leader in crisis negotiation, BHO sent Joe "Bad Dog" Biden. After five and a half hours of "tense" negotiations, and no deal, Bad Dog Biden said "man, these guys are tough".

**CH:** *Chinese 'X' Beats Biden 'O' in Island Tic Tac Toe*

**BS:** Despite their projection of omnipotent power, the Parrot Press is often caught with their tail in the ringer. Such was the case recently when MSNBC new reader, Martin Bahir alluded to defecation in a rival readers mouth. First he went on “vacation” which was soon extended to “permanent vacation”.

**CH:** *Mouth of Poo Martin Flushed by MSNBC*

**BS:** Faced with double digit ratings drops to infinity, CNN opted for a Zucker bailout.

**CH:** *Zucker Puts New Shade of Lipstick on CNN Pig*

We could go on endlessly with this absurd false paradigm reality, but at some point it world would be better to just explain the now transparent mosaic. We have a puppet government and a Parrot Press. Barry Soetoro was preselected and groomed as the half-master, half-slave overseer on the elite’s progressive plantation. His megalomania, coupled with the power he currently holds, does not bode well for humanity. Here are two very dangerous memes that underpin this expanding tyranny. One, is that to oppose ANY of the executive overreach, or poor concepts of this office is RACIST, and is not protected by the First Amendment. Two, that the Second Amendment is a threat to the safety of our nation. Here the back story can place both subjects in context.

Obama authorized the illegal shipments of assault weapons from legal American businesses to the illegal drug cartels that resulted in the MURDER of hundreds of innocent, unarmed Mexican citizens. Obama authorized the illegal shipment of assault weapons from CIA caches to the Mo-slum Brotherhood resulting in the overthrow of multiple Middle East countries and the MURDER of hundreds of innocent, unarmed Coptic Christians by religious bigot arabs and the MURDER of tens of thousands of black Libyans by racist arabs. Obama has authorized drone strikes in a dozen countries resulting in the MURDER of hundreds of innocent, unarmed civilians.

It has been GOVERNMENT that has created the genocide of the past, present and they fully intend to stage set for the greatest human extinction in history in the near future. It takes decades of study to analyze the defective science and history in this false paradigm, to be able to explain it well. Once explained, Truth is self evident. If you support this false idol on the basis of token ethnicity then you might be a racist. But enough of political introspection, let’s return to the tabloid reality, and more corrected headlines.

**BS:** Apparently, Hollywood trollop Lindsay Lohan and vacuous heiress Paris “Airhead” Hilton had a tiff at the Miami Art Basel event and trollop supporters pushed heiress siblings. The resulting twitter war was only missing its corrected headline.

**CH:** *Some Feuds Can Only Be Settled with NUDE MUD WRESTLING*
